

CG Docket Nos. 03-123 and 10-51

Dear Chairman Genachowski and Commissioners Copps, McDowell, Clyburn, and Baker,

I am deaf and use Video Relay Service to communicate in my native American Sign Language (ASL). I must admit my dismay when I read the Public Notice from the FCC on VRS rates. The change in rates could compel VRS companies to cut back on quality and quantity of services or go out of business. It seems unreasonable and poorly thought out.

You must be forward-thinking and ensure that we continue to have VRS access and allow for VRS research and development to continue as technology evolves. The Americans with Disabilities Act indicates that all deaf individuals must have access to communication that is functionally equivalent to hearing technology. With the proposed rates, service will not be near what we receive today and what we have today is still far from functionally equivalent.

I urge you to put yourselves in our shoes and think about the impact should communication access for you suddenly become minimal. You would not stand for this, not for one minute.

Sincerely,

Signature Mary M. Scopp Date 6-12-10
